MATERIAL SAFETY DATA SHEET

TRANSFER GRAPHITE BLACK

Page:

PRODUCT NAME: TRANSFER GRAPHITE BLACK

PRODUCT CODE: 795980

HMIS CODES: H F R P 2 3 0 G

MANUFACTURER'S NAME: GOTHAM INK COMPANY ADDRESS : 19 KAY FRIES DRIVE

STONY POINT , NY 10980

INTERNATIONAL EMERGENCY#011-813-979-0626

CHEMTEL EMERGENCY : 1-888-255-3924 DATE PRINTED : 10/16/12

INFORMATION PHONE : 1-845-947-4000 NAME OF PREPARER : JOSEPH CLOHOSEY

====== SECTION II - HAZARDOUS INGREDIENTS/SARA III INFORMATION ========

			VAPOR PRESSURE	WEIGHT
٠	REPORTABLE COMPONENTS	CAS NUMBER	mm Hg @ TEMP	PERCENT
	N-PROPANOL	71-23-8	13.00000 68 F.	53
	OSHA TLV: 200 PPM, ACGIH TWA; 200 PPM, OTHER: NA			
	ETHANOJ.	64-17-5	40.00000 66 F.	6
	OSHA: 1000 PFM TWA, ACGIH: 1000 PPM TWA			

*** No toxic chamical(a) subject to the reporting requirements of section 313 of Title III and of 40 CFR 372 are present. *** SHIPPING CLASSIFICATION: FLAMMABLE INK. 3.3, UN 1210

========= SECTION III - PHYSICAL/CHEMICAL CHARACTERISTICS ==========

BOILING RANGE: N/A SPECIFIC GRAVITY (H2O=1): VAPOR DENSITY: HEAVIER THAN AIR **EVAPORATION RATE:** < N-BUTYL ACETATE

COATING V.O.C.: 5.09 lb/alMATERIAL V.O.C.: 5.09 lb/al

SOLUBILITY IN WATER: Not soluble

APPEARANCE AND ODOR: Colored liquid / typical solvent odor

* Varnish, Topcoat & Extender have Clear to Amber or Offwhite appearance.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA ========= _________

FLASH POINT: <100 deg F METHOD USED: TCC

FLAMMABLE LIMITS IN AIR BY VOLUME- LOWER: 2.10000 **UPPER:** 21.20000

EXTINGUISHING MEDIA: FOAM, CO2, DRY CHEMICAL, WATER FOG

SPECIAL FIREFIGHTING PROCEDURES

Self-contained broathing apparatus with full face piece operated in pressure demand or other positive pressure mode. During emergency conditions over exposure to decomposition products may cause immediate or delayed health hazards.

UNUSUAL FIRE AND EXPLOSION HAZARDS

Vapors are heavier than air and may travel along the ground and be ignited by heat open flame or other ignition sources. Keep containers tightly closed. Isolate from heat, sparks, electrical equipment, and open flames. Closed containers may polymerize and explode when exposed to extreme heat.

STABILITY: STABLE CONDITIONS TO AVOID

Do not expose to high temperatures or open ignition sources.

MATERIAL SAFETY DATA SHEET

TRANSFER GRAPHITE BLACK

Page:

2

INCOMPATIBILITY (MATERIALS TO AVOID)

Avoid contact with strong oxidizing agents.

HAZARDOUS DECOMPOSITION OR BYPRODUCTS

May form toxic materials.carbon dioxide, carbon monoxide, various hydrocarbons, etc on thermal decomposition.

HAZARDOUS POLYMERIZATION: WILL NOT OCCUR

N/A

INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Excessive inhalation of vapors can cause masal and respiratory irritation, weakness, dizziness, fatigue, nausea, headache and possible unconsciousness. Very severe exposure may cause respiratory depression and possible convulsions.

SKIN AND EYE CONTACT HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Prolonged or repeated skin contact can cause moderate irritation, defatting, dermatitis. May cause pain and severe eye irritation seen as excess tearing, redness and blurred vision.

SKIN ABSORPTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Organic solvents are easily absorbed: drying of the skin, redness or dermatibis are signs of repeated or overexposure to the solvents defatting action.

INGESTION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

Can cause moderate gastrointestinal irritation, nausea, vomiting & diarrhea, incoordination and general weakness. May cause kidney & liver damage.

HEALTH HAZARDS (ACUTE AND CHRONIC)

ACUTE-PYES: Can cause severe irritation, redness, tearing, and blurred vision. SKIN: Can cause severe irritation, defatting and dermatitis. INHALATION: Can cause masal and respiratory irritation. Aspiration into lungs can cause chemical pneumonitis which can be fatal. CHRONIC: Very prolonged or repeated exposure above TLV may result in permanent brain & nervous system damage.

CARCINOGENICITY: NTP CARCINOGEN: No IARC MONOGRAPHS: No OSHA REGULATED: No Nome known at this time.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE

Prolonged or exposure to very high concentrations of vapors may aggrevate existing dermatitis or produce blood disorders

EMERGENCY AND FIRST AID PROCEDURES

EYES: Flush immediately with large amounts of water for at least 15 minutes. Take to a physician for medical treatment SKIN: Wash affected areas with soap and water. Remove contaminated clothing. Consult a physician if invitation persists. INHALATION: Remove to fresh air. Restore breathing. Troat symptomatically. Consult a physician. INGESTION: Drink 1 or 2 glasses of water to dilute. Do not induce vemiting. Consult a physician or poison control center immediately. Treat symptomatically.

======= SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE =========

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Eliminate all iduition sources. Dike, contain, or absorb with inext materials (sand, vermiculite, etc.). Transfer to containers for recovery or disposal. Prevent runoff into sowers, streams, or other bodies of water. GROUND WORK EQUIPMENT.

WASTE DISPOSAL METHOD

Dispose of in accordance with all local, state, or Federal regulations.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Do not store or use near sources of high temperatures, near fire or open flame, or other ignition sources. Keep container close. NOTE: ALL CONTAINERS MUST BE GROUNDED AND BONDED WHEN POURING.

3

OTHER PRECAUTIONS

Do not take internally. Avoid prolonged or repeated exposure to levels above TLV. Hot organic chemical vapors or mists are susceptible to sudden spontaneous combustion when mixed with air. Ignition may occur at typical elevated-temperature process conditions. Any proposed use of this product in elevated-temperature processes should be throughly evaluated to assure that safe operating conditions are established and maintained.

RESPIRATORY PROTECTION

If TLV is exceeded use NIOSH/MSHA approved organic vapor and mist, supplied air or self contained breathing apparatus.

VENTILATION

Use adequate mechanical (general and/or local) ventilation to maintain exposure below TLV. Special local ventilation is recommended at points where vapors can be expected to escape to the workplace air.

PROTECTIVE GLOVES

Wehr resistant gloves such as nitrile rubber.

EYE PROTECTION

Use chamical splash goggles or other OSHA permitted safety glasses.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Wear impervious clothing. Eyewash stations.

WORK/HYGIENIC PRACTICES

Wash hands before eating or using restrooms. Remove and wash contaminated clothing before reuse.

The information contained herein is furnished without warranty of any kind. Amployers should use this information only as a supplement to other information gathered by them and must make independent determination of suitability and completeness of information from all sources to assure proper use of these materials and the safety and health of employees.
